Assistant Professor Position in Industrial Engineering  
Faculty of Engineering  
Dalhousie University

The Department of Industrial Engineering at Dalhousie University invites applications for a probationary tenure-track position, at the Assistant Professor level, from candidates with outstanding research and teaching abilities in industrial engineering.

The successful candidate will have an earned doctorate in industrial engineering, or a closely related field, with a proven teaching record, or potential for teaching excellence, and an ability to interact with industry. Candidates must be registered professional engineers, or an EIT, in Canada and/or eligible and committed to professional registration in Nova Scotia.

Duties will include teaching, at both the undergraduate and graduate levels, in health care operations and planning. The selected candidate is expected to develop an externally-funded research program. Demonstrated application of industrial engineering, operations research, or operations management techniques in a health care environment would be ideal. The tentative start date for the appointment is September 1, 2018. To guarantee full consideration, candidates should apply before 14 May 2018.

Please see [https://www.dal.ca/faculty/engineering/industrial.html](https://www.dal.ca/faculty/engineering/industrial.html) for details about the Department.

Applications, including a curriculum vita, the names and contact information of three referees, and a completed Self-Identification Questionnaire (available at [www.dal.ca/becounted/selfid](http://www.dal.ca/becounted/selfid)), should be submitted to:
