**Instructor (Agriculture, Food, and Environmental Chemistry)**
**Department of Plant, Food, and Environmental Sciences**
**Faculty of Agriculture, Dalhousie Agricultural Campus, Truro**

Dalhousie is a leading, research-intensive Canadian university offering a wealth of programs through diverse faculties. With campuses located in Halifax and Truro, Nova Scotia, as well as a Medical School site in Saint John, New Brunswick, Dalhousie has more than 6,000 faculty and staff who make up the university’s energetic academic community.

The Faculty of Agriculture, Dalhousie University campus is located in Truro, NS. Offering technical, undergraduate and graduate programs in agriculture, food, environment, and social science disciplines, the Faculty of Agriculture educates future leaders and generates knowledge and innovative solutions for healthy, sustainable societies. This position will be located in the Department of Plant, Food, and Environmental Sciences of the Faculty of Agriculture, Dalhousie Agricultural Campus, Truro, Nova Scotia. The Department of Plant, Food, and Environmental Sciences offers a stimulating academic environment featuring a breadth of expertise, a strong applied research focus, and linkages across the university and beyond.

The Department of Plant, Food, and Environmental Sciences in the Faculty of Agriculture invites applications from qualified candidates for a full-time Instructor position in **Agriculture, Food, and Environmental Chemistry** with teaching (domestic and international articulated programmes), academic programme coordination, and service responsibilities including multiple laboratory set-ups and management, inventory, safety audits and training of graduate students and research staff in instrumentation. Salary commensurate with qualifications and experience.

A minimum of a Master's degree in Chemistry, Agricultural Chemistry, Food Chemistry, Environmental Chemistry from a recognized university, with at least one degree in Chemistry plus at least one year of teaching experience in Chemistry, Agricultural Chemistry, Food Chemistry or Environmental Chemistry in a post-secondary institution is required. Applicants must have knowledge and experience of the role of Chemistry in Agriculture, Agri-food, and/or Environment. Evidence of teaching at the undergraduate level is required.

Demonstrated excellence and strong passion in teaching in a multi-cultural, multi-national environment, with strong leadership skills, interpersonal skills, and an ability to work in co-operation with a number of university, government, and industry groups, are desirable assets. The individual must be highly motivated with sound judgement, professionalism, integrity, collegiality, resourcefulness, innovation, self-motivation, excellent communication skills and strong organizational skills.

The successful applicant will teach distance, diploma, and degree courses for students in Environmental Sciences, Plant Sciences, Integrated Environmental Management, Landscape Horticulture and Landscape Architecture, Animal Science and Aquaculture programmes within Dalhousie University, and at international universities where articulation agreements are in effect. The successful applicant is expected to build strong connections with the Canadian and regional agriculture, agri-food and environmental industries through teaching and outreach activities. The applicant must have a strong commitment to teaching and service to the university.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons, persons with a disability, racially visible persons, women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of our community.
